Client _____ Quantity _____

Project _____ Position _____

FUN 700

Model: F70/70PGI/50 **Cod:** MP01532113000

Technical data

Modularity:	On closed cabinet
Dimensions (mm):	700x700x850
Total gas power (Kcal/h):	11780
Total gas power (kW):	13,7
Nr. Wells:	1
Well litres 1:	50
Well dimensions 1 (mm):	Ø400x475
Gas connection:	1/2"
Drain size:	1 1/2"
Net volume (m3):	0,417
Packing dimensions (mm):	880x856x1274
Gross weight (kg):	94
Gross volume (m3):	0,960

Features

Working top:	Made of AISI 304 stainless steel with a thickness of 10/10 mm
Type of heating:	Indirect
Knobs:	Knobs are made from a sturdy heat-resistant polymer blend and are equipped with liquid anti-leakage washer
Water inflow:	With tap positioned on the top
Kit Gas:	Natural gas conversion kit 30/50 m/bar (tested with natural gas G20)

modular

Gas boiling pan indirect-heated, 50 liters

Gas pan indirect heating capacity 50 lt. Top and tub made of AISI 304 stainless steel; covering in AISI 304 stainless steel thickness 10/10; external reinforcements made of anti-corrosion material (aluminised sheet metal); bottoms and internal parts in AISI 430 steel. Model with indirect heating of the tub by means of water-filled chamber. Equipped with a water filling tap for the tub located on the top and a large 11/2 drain valve located on the front panel. Equipped with cocks to check water level in the water-filled space and a series of safety devices including the valve assembly for the control of pressure in the water-filled space. Burner in stainless steel with piezoelectric ignition pilot burner located under the water-filled space of the tub. Gas is supplied by means of a safety valve with thermocouple, pilot burner and piezoelectric lighter for automatic burner ignition. Nominal capacity: 50 lt. Internal tub diameter mm. 395. Power: 1 burner x 13.7 kW.

Technical draw

G: Gas connection 1/2"

H2O: Water inflow 3/4"
